

Profile

As a recent graduate, I've been working with code and development software for the last 3 years, learning anything from 2D platformer games to website structure. My favorite things are website design, and video game development. I want to create work that will inspire others, as I've been inspired.

Work Experience

Web Developer Internship **Jan 2021-May 2021**
OneBuilder
Working on maintaining and updating existing websites, developing new websites, and resolving bugs using JS, Gatsby, and ReactJS.
